P.i.[®]-Treated Fuel Delivers Maximum Performance

AMSOIL P.i. ranks among the most potent gasoline additives available today. As a concentrated detergent, it is outstanding in cleaning combustion chamber deposits, intake valve deposits and port fuel injector deposits. AMSOIL P.i. helps maintain peak engine efficiency, fuel economy, power and drivability in newer low-mileage engines. In engines with accumulated deposits, testing showed AMSOIL P.i. provided the following clean-up benefits after only one tank of gasoline:

- Improved fuel mileage an average of 2.3% and up to 5.7%
- Reduced emissions
 - hydrocarbons (HC) up to 15%
 - carbon monoxide (CO) up to 26%
 - nitrous oxides (NOx) up to 17%
- Restored power and performance
- Reduced need for costly higher-octane fuel
- Reduced noise from carbon rap and pre-ignition
- Better drivability
- Smoother operation

Use of AMSOIL P.i. prior to emissions tests can help vehicles pass emissions inspections.

Exceptional Deposit Clean-Up

AMSOIL P.i. cleans harmful deposits from:

Fuel Injectors

Injector spray pattern
before P.i. treatment

Injector spray pattern
after P.i. treatment

Optimal spray patterns ensure maximum engine efficiency, power and fuel economy.

Intake Valves

Intake valve before
P.i. treatment

Intake valve after
P.i. treatment

Clean intake valves support maximum engine power, reduced emissions, proper engine efficiency and reduce the risk of valve failure.

Combustion Chambers

Combustion chamber
before P.i. treatment

Combustion chamber
after P.i. treatment

Clean combustion chambers control knock, restore power and increase fuel economy.

AMSOIL P.i. Money-Back Guarantee

AMSOIL P.i. Performance Improver is so effective, AMSOIL now offers a money-back guarantee on the product's fuel economy benefits. If you do not see fuel economy improvements in your vehicle after a first-time use of P.i., AMSOIL will refund the purchase price of the product.

P.i. Money-Back Guarantee Conditions

The P.i. money-back guarantee is limited to vehicles with a minimum of 25,000 miles that have not previously been treated with P.i. and have not undergone any fuel system or fuel injector cleaning or replacement procedure. P.i. must be used with a full tank of gas, and the P.i.-treated gas must be run until the tank is near-empty before filling up again. Fuel economy measurement will then be taken on the tankful of gas following the P.i.-treated tank, and if no improvement is realized the money-back guarantee applies. To take advantage of the money-back guarantee, you may simply download and print the rebate form available at **www.amsoil.com**. The form contains complete qualification details and must be completely filled out and mailed with the P.i. purchase receipt. (All conditions must be met in order to qualify.)

P.i. must be used in accordance with the treat rates listed on the bottle. This offer is limited to one refund per customer and is good through August 31, 2011.
